Chronology and Overview of COVID-19 Events

from the book

COVID-19 and the Global Predators: We Are the Prey

by Peter R. Breggin MD and Ginger R. Breggin

Lake Edge Press, NY, 2021

Copyright 2021 and 2022

This Chronology and Overview of COVID-19 Events originally appeared with additional details in the second printing of the book *COVID-19 and the Global Predators* in November 2021. Starting soon after the second printing, we began to continually add new materials to this document on our website, www.breggin.com. We want to provide the world with an increasingly comprehensive and updated timeline and analysis of events leading up to and associated with COVID-19. The events demonstrate how thoroughly the global predators successfully planned nearly all the dismaying and oppressive “public health” and political interventions that are threatening liberty throughout the world. For the most thorough analysis of these events, read our book, *COVID-19 and the Global Predators*, and then follow up with this continually updated chronology and overview.

Items that can easily be located in the book will not receive endnotes.

1984: Anthony Fauci becomes Director of the National Institute for Allergy and Infectious Diseases (NIAID), an institute of the National Institutes of Health (NIH). Fauci seems very powerful, but we will find that, in reality, he does not “call the shots.” *Fauci’s longevity is not, and could never be, due to his supposed role as an objective scientist. He is neither objective nor a scientist. His longevity is due entirely to his Machiavellian subservience to those who call the shots and his willingness to use and abuse those over whom he has been given power.*

If an individual takes independent actions at odds with or detrimental to the interests of the dominant billionaires, global pharmaceutical companies, tech companies, bankers, and so on, he cannot stay in charge of a government institute for multiple decades. Henchmen, like Fauci, are rule followers, not rule makers. Like mafia captains or capos, they can be domineering, cruel, and deadly within their own territory, but the real and ultimate power derives from the bosses.

March 1997: Ralph S. Baric, in the Department of Microbiology and Immunology of the University of North Carolina at Chapel Hill, engineers a mouse hepatitis coronavirus to cross species to infect baby hamster cells.⁹⁶⁴ NIH funds the gain-of-function research. The term “gain-of-function”

designates research that enables a virus to become more transmissible (infectious) or pathogenic, including enabling it to jump from one species to another or to cause an epidemic. We have proposed that most of this research should be referred to as “gain-of-lethal-function.” This study is a big step toward infecting humans with animal coronaviruses.

February 2000: Researchers from the NYS Department of Health in Albany and the Institute of Virology in the Netherlands describe how “Coronaviruses generally have a narrow host range, infecting one or just a few species” and “One of the hallmarks of this family is that most of its members exhibit a very strong degree of host species specificity, the molecular basis of which is thought to reside in the particularity of the interactions of individual viruses with their corresponding host cell receptor.”⁹⁶⁵ This shows the unlikelihood of Fauci’s concern about an animal coronavirus jumping to humans. However, the researchers manage to “retarget” a mouse *coronavirus* to make it “cross the host cell species barrier” into cat cells.⁹⁶⁶ In short, although it rarely happens in nature, in the lab, an infectious mouse virus is turned into an infectious cat virus. This project increases the risk of further spread should a mouse or cat escape to infect other animals or people in society.

Although coronaviruses are not a high risk for jumping to human beings, they are among the viruses most easily engineered in the lab by humans to cross species. This relative ease of manipulating them is the main reason researchers have always been so interested in them. Coronaviruses are not a major threat to humans until humans make them into pathogens.

June 22-23, 2001: “The *Dark Winter* exercise portrayed a fictional scenario depicting a covert smallpox attack on U.S. citizens.”⁹⁶⁷ It is an extensive wargame by National Security Council in which Johns Hopkins University (JHU) plays a role, the first of many activities led by JHU that eventually display specific foreknowledge of the coming coronavirus pandemic. “Dark Winter” is a precursor to the **Pandemic Predictions and Planning Events** that start multiplying in 2017.

2002-4: SARS-CoV-1 appears in southern China in late 2002 and spreads around the world. It is very lethal, killing nearly 800 out of 8,000 people infected worldwide, but is contained before causing cases in the U.S.⁹⁶⁸ China immediately begins engineering the virus in its labs—indicating it

might have been able to engineer it originally from benign bat viruses—but the origin of SARS-CoV-1 remains unknown. In 2004, China’s virus lab in Beijing begins experiencing the first of several accidental releases of variants of SARS-CoV with a limited number of deaths.

2003-4: Six separate accidental lab contaminations in and around China lead to persons infected with variants of SARS-CoV carrying them from labs, sometimes infecting others. Four are from China’s Beijing Virus Institute. We will eventually draw several key observations as we cut through the enormous misinformation campaign by Fauci, Gates, WHO, the Chinese Communists, and a large array of global predators:

1. No SARS-CoV has ever been found in nature.

2. Some “SARS-like” CoVs have been found in bats in caves, but it takes enormous scientific and engineering efforts to convert them into viruses that can infect animals and human cells—efforts that could no more occur in nature than any other human engineering feat from building artificial arms to programming computers. Converting SARS-like CoV into pandemic SARS-CoV-2 was a colossal, scientific effort requiring decades of work and billions of dollars. It could never be mimicked by evolution.

3. The risk of SARS-CoV emergences from nature is miniscule and hardly worth considering compared to the high risk of its intentional or accidental release from one of the many labs containing them. Fauci and his bosses, like Gates, from among the global predators have it backward: The danger is not from nature, but from the gain-of-function research funded in part and wholly encouraged by Fauci and conducted in America, China, and elsewhere.

April 17, 2003: Laboratories quickly became able to study and to work with the virus, and a team of scientists submits the complete genome for a strain of SARS-CoV-1 to the CDC.⁹⁶⁹

November 2003: There are now multiple lab studies supporting the potential use of chloroquine and its derivative hydroxychloroquine for the treatment of SARS-CoV, including in *The Lancet*, which provided numerous citations.⁹⁷⁰ The papers demonstrate their mechanisms of action for prevention and treatment in both cell cultures and in animals. The safety of this already long-used drug is emphasized.

Seventeen years later, when the Emergency Use Authorization (EUA) is applied to COVID-19 in order to fund vaccine research and to rush through vaccine EUAs without the usual FDA approval requirements and without financial risk to the drug companies, there will be a catch. The EUA could not go into effect if safe and effective treatments were already available. Therefore, this prior, intensive research confirming hydroxychloroquine's safety and potential effectiveness in SARS-CoV infections was ignored or suppressed, and doctors were told that there were no safe treatments. This fraudulent suppression of good treatments in order to make the vaccine companies and their investors wealthier and more powerful results in millions of deaths and the crushing of economies throughout the Western world during COVID-19.

2006a: Research establishes that impaired or older *vaccinated* mice challenged with SARS-CoV have potentially deadly reactions to the N protein within the virus.⁹⁷¹ Subsequent research will find that same problem with the spike protein. Animal research will continue to establish this deadly S protein risk right up to the time that the COVID-19 vaccines are going through Operation Warp Speed in 2020.

2006b: Pandemic Predictions and Planning Event. The **International Finance Facility for Immunization**, or IFFIm, is established. The stated purpose is to enable poorer nations to obtain guaranteed inexpensive loans for purchasing vaccines through novel loan arrangements involving the Bank of America and other funding sources. However, these loans are connected to two predatory organizations, GAVI and CEPI, both of which find ways to increase the markets of the pharmaceutical industry. GAVI describes how it uses proceeds from the bonds:⁹⁷² "For Gavi, the proceeds of Vaccine Bonds help ensure predictable funding and more efficient operations. In addition, Gavi can frontload funds when necessary for rapid roll-out of new and underused vaccines. For example, IFFIm funds enabled Gavi to stimulate country demand for the five-in-one pentavalent vaccine, enlarging the size of the market, attracting new manufacturers, and reducing prices." The loans will cycle back into the pharmaceutical industry and its investors.

December 2008: Vanderbilt and UNC under Ralph Baric synthesize a "bat SARS-like coronavirus," a "SARS-CoV," that infects live mice and "human ciliated airway epithelial cells" in the lab.⁹⁷³ This breakthrough receives

little attention in the media, but it is a turning point. Starting with a harmless bat virus and an added spike protein, they make a SARS-CoV capable of infecting live mice and human lung cells. That human antibodies attack this virus in the living mice and the human epithelium probably inspires the global predators. They could make trillions of dollars on vaccines while enforcing their authoritarian control. It all depends on a COVID-19 pandemic coming along.

2009: Moderna is founded with the aim of making mRNA vaccines.⁹⁷⁴ Despite no products or income, investors pour in money. Two tantalizing quotes in technical language show what a dangerous and highly experimental product Moderna is making. In 2012, a scientific report in *PLOS ONE* finds:

These SARS-CoV vaccines all induced antibody protection against infection with SARS-CoV. However, challenge of mice given any of the vaccines led to occurrence of The-type [sic] immunopathology suggesting hypersensitivity to SARS-CoV components was induced. Caution in proceeding to application of a SARS-CoV vaccine in humans is indicated.⁹⁷⁵

A financial analysis in April 2021 notes, retrospectively:

Moderna's technology platform inserts synthetic nucleoside-modified mRNA (modRNA) into human cells using a coating of lipid nanoparticles. This mRNA then reprograms the cells to prompt immune responses. *It is a novel technique, abandoned by other manufacturers due to concerns about the toxicity of lipid nanoparticles at high or frequent doses.*⁹⁷⁶ (Italics added.)

January 2010: Pandemic Predictions and Planning Event. Bill and Melinda Gates call for the next ten years to be the Decade of Vaccines.⁹⁷⁷

May 2010: Pandemic Predictions and Planning Event. Almost a decade before COVID-19, the Rockefeller Foundation publishes a future pandemic scenario in a business investment-oriented, 53-page booklet, *Scenarios for the Future of Technology and International Development*.⁹⁷⁸ The first "Scenario Narrative" in the booklet is called "Lock Step: A World of tighter top-down government control and more authoritarian leadership, with limited

innovation and growing citizen pushbacks.” The opening line is, “In 2012, the pandemic that the world had been anticipating for years finally hit.”

The only real regret displayed about the pandemic is the lack of investment opportunity. Despite dozens or more suggestive scientific articles, especially in 2008, the idea of a coronavirus pandemic and expensive vaccines with unlimited profit opportunities had not yet been imagined by these futurists. Nonetheless, the advantages of a “Lock Step,” “top-down,” and “authoritarian” government are already explored and celebrated and seen as permanent after the next coming pandemic.

December 2, 2010: Pandemic Predictions and Planning Event. From the Bill & Melinda Gates Foundation:

New York: The World Health Organization (WHO), UNICEF, the National Institute of Allergy and Infectious Diseases (NIAID), and the Bill & Melinda Gates Foundation have announced a collaboration to increase coordination across the international vaccine community to create a Global Vaccine Action Plan.⁹⁷⁹

The Leadership Council is reintroduced with Dr. Margaret Chan, Director General of WHO at the top, followed by Anthony Fauci of NIAID among the five elite internationals. This document confirms that Fauci was working with Bill Gates going back to December 2010 on making the overall plans for the coming pandemic and the outrageous pushing of unsafe vaccines on the world.

Ginger Breggin points out, “That’s planning. Gates announces the decade of the vaccines at the beginning of 2010 and fulfills his wildest ambitions in 2020.”

September 2011: Pandemic Predictions and Planning Event. The United Nations passes Resolution 2030, calling for governments and international corporations to collaborate under the U.N. to pursue a huge variety of “progressive aims.” No mention is made of fighting authoritarian or totalitarian governments or spreading personal freedom and political liberty. Resolution 2030 becomes the model for the Great Reset, although without U.N. governance. The document mentions vaccines three separate times. Presaging the Great Reset, the U.N. calls for making vaccines universally free while simultaneously protecting corporations from “financial risk” or losses:

Achieve universal health coverage, including financial risk protection, access to quality essential health-care services, and access to safe, effective, quality, and affordable essential medicines and vaccines for all.⁹⁸⁰

September 21, 2011: A research article supported by Fauci's NIAID and the University of North Carolina, with Baric's name on it, reconfirms and illustrates important problems associated with gain-of-function research with coronaviruses:⁹⁸¹ (1) It begins by repeating the falsehood that there are many SARS-CoV viruses in animal reservoirs waiting to emerge, necessitating investments in research: "Severe acute respiratory syndrome coronavirus (SARS-CoV) is an important emerging virus that is highly pathogenic in aged populations and is maintained with great diversity in zoonotic reservoirs"; (2) It makes clear that they already have created numerous pathogenic variations on the original SARS-CoV-1, because they are using them in their experiments. It also verifies two serious problems with SARS-CoV vaccines: Vaccines made for one variant of SARS-CoV are not effective for others and *aged vaccinated mice exposed to SARS-CoV are not protected and instead are vulnerable to human-like severe immune reactions. The spike protein is the source of the problem:* "Importantly, aged animals displayed increased eosinophilic immune pathology in the lungs and were not protected against significant virus replication" and "When challenged with zoonotic and human chimeric SARS-CoV incorporating variant spike glycoproteins, the aged BALB/c mouse model reproduces severe lung damage associated with human disease, including diffuse alveolar damage, hyaline membrane formation, and death."

Like COVID-19 itself, deaths from the vaccines, especially in older vaccinated people challenged with SARS-CoV-2, were predicted and seemingly planned from the beginning. The lethal capacity is built into the spike protein for all mRNA and DNA vaccines to force the cells in the human body to make innumerable exact copies of the SARS-CoV-2 spike protein, poisoning the body from the inside out. Research on animals continues to confirm this deadly effect even after the vaccines are going into production with Operation Warp Speed (see September 9, 2020, entry regarding Wen Shi Lee et al. in Nature Microbiology.)

September 2012: A review article warns against starting research on humans with mRNA vaccines, in part because animals given the vaccines can become more ill than expected and even die when they are later exposed to a SARS-CoV lab-engineered virus.

September 2013: Pandemic Predictions and Planning Event. NIH awards \$10,000,000 to Baric and UNC to study and manipulate “highly pathogenic human respiratory and systemic viruses which cause acute and chronic life-threatening disease outcomes.” Baric says the “focus” would be on “highly pathogenic coronavirus infections, using SARS-CoV and MERS-CoV as models.”⁹⁸²

October 2014: On White House stationery, President Barack Obama calls for a moratorium on gain-of-function research that manipulates animal viruses to increase their capacity to infect and harm other species, including humans. Fauci will ignore and work around this prohibition. In particular, he never stops funding the single most important and most dangerous gain-of-function research by Menachery at the University of North Carolina, which Fauci funds to this very day through EcoHealth Alliance.⁹⁸³

2015a: Fauci approves China’s first-ever Bio-safety Level-4 (BSL-4) lab at the Wuhan Institute of Virology to facilitate giving money to Wuhan scientists for gain-of-function research.

2015b: Pandemic Predictions and Planning Event. Bill Gates is by now investing in the RNA vaccine industry.⁹⁸⁴

2015c: Pandemic Predictions and Planning Event. Reports in May 2021 confirm the obvious. In 2015, Chinese Communists are discussing among themselves the use of coronaviruses as biological weapons with observations about the acute and permanent fear and disability that they would create.⁹⁸⁵ Biological warfare experts in the U.S. are likely doing the same thing. The likelihood should be taken for granted, especially since DARPA is openly funding U.S. coronavirus research.

2015d: Pandemic Predictions and Planning Event. Bill Gates conceives of the Coalition for Epidemic Preparedness Innovations (CEPI) in 2015⁹⁸⁶ and funds it through the Bill & Melinda Gates Foundation. Gates begins

organizing a worldwide alliance to finance and coordinate the development of new vaccines to make a financial killing and to reorganize and basically control world governance in the coming pandemic.

Klaus Schwab and his World Economic Forum (WEF) is another founder. He works closely with Gates and will, in 2020, unveil the Great Reset. The Great Reset will become the mantra for Bill Gates, Joe Biden, John Kerry, China, and other globalists seeking to subdue the independent, patriotic, freedom-oriented America First movement.

Wellcome Trust, a British “charitable” trust, is another CEPI founder. Based on pharmaceutical industry funding and focused on the health arena, it is one of the largest charities in the world.

The Government of India is another founder, followed by Germany and Japan—which completes the fusion between huge corporations, giant “philanthropic” organizations, and very big government.

In 2017, WHO will join and become the announced scientific arbiter for all CEPI activities, which ties the pandemic planning program to both the United Nations and, most importantly, to Communist China, which controls WHO. See three additional entries in this *Chronology and Overview*: January 18, 2017; January 24 and March 2017; and July 21, 2017.

This CEPI coalition will control the unfolding of COVID-19 and the Great Reset—although they will be joined by innumerable billionaires, corporations, philanthropic groups, and governments and their agencies. Anthony Fauci, a member of Bill Gates’ small, elite vaccine Advisory Council, will be one of Bill Gates’ leading implementers of the program.

January 26-27, 2015: Pandemic Predictions and Planning Event. “At the Berlin Pledging Conference 2015, the Bill & Melinda Gates Foundation announces USD 1.55 billion for Gavi’s next 2016-2025 strategic period.”⁹⁸⁷ Gavi is the Global Alliance for Vaccines and Immunization, and, like many of the Gates’ ventures, has been criticized for representing the interests of the pharmaceutical companies.⁹⁸⁸ It is a corporate-government fusion that bypasses the decision-making process of a democratic republic in favor of global predatory planners. It is what will later be called the Great Reset. These large, organized investments in vaccines are taking place five years before COVID-19.

April 2015: Pandemic Predictions and Planning Event. Bill Gates gives a famous TED Talk explaining that if anything is going to kill 10 million people worldwide, it's a virus.⁹⁸⁹ His affect has a touch of grim humor that some people find shocking.

December 2015: Vineet Menachery and Ralph Baric at the University of North Carolina make the great breakthrough.⁹⁹⁰ They transform innocuous bat coronaviruses into epidemic SARS-CoV pathogens that infect live mice and human lung tissue preparations. But something more threatening is disclosed by the publication. *With Fauci-funding, U.S. researchers are collaborating with top Chinese scientists from the Wuhan Institute of Virology, a Chinese Communist Party facility, now directed by the military's leading biological warfare specialist. Despite President Obama's moratorium, Fauci has been continuing to fund both the American and the Chinese researchers in this epitome of hugely dangerous gain-of-function research. The research collaborations create at least two nightmare scenarios: a **major risk** of the poorly managed Wuhan Institute accidentally leaking one of its many man-made SARS-CoV pathogens and the **certain** step of advancing the biological warfare capacity of the Chinese Communist Party and its military.*

January-November 2016: Pandemic and Predictions Planning Event. CEPI: Preliminary Business Plan (see Chapter 15). The Big Master Plan. Planning begins at least as early as January 2016 and it is published in November 2016. It brings global predators together in one organization essentially created by Bill Gates and Klaus Schwab, called *CEPI: The Coalition for Epidemic Preparedness Innovations*. This fulfills Gates' ambition to run the financing of the coming pandemic within partner Klaus Schwab's concept of the Great Reset, fusing corporate/government funding under the control of elite billionaires and hand-picked entities led by Gates. *The sole focus is developing highly remunerative new vaccines at rapid speed with government support while bypassing FDA requirements—everything Gates and CEPI get four years later during COVID-19, including all drug company costs fully reimbursed (p. 38).*

The corporate/government fusion is exemplified by BARDA and its director Rick Bright's early 2016 involvement in CEPI. BARDA is mentioned 15 times and Rick Bright twice. Bright is on the Task Team for Science and Regulation and also the CEPI Scientific Advisory Committee. In 2020, he

will help prevent President Trump from spoiling their plans by releasing federal stockpiles of hydroxychloroquine. Other named CEPI “partners” and key players include the FDA, NIH, NIAID, and WHO (mentioned 72 times). Drug companies and other wealthy entities are the CEPI backbone. Gates and his partners are leading a global governance above all sovereign nations—except Communist China, to which they all defer.

February 2016: Pandemic Predictions and Planning Event. The Wuhan Institute and other Chinese Communist sponsors announce an international conference to be held on October 21-23, 2016, in Wuhan: “Nature Conference: Viral Infection and Immune Response.”⁹⁹¹ Many speakers are from the U.S., including two from NIAID. The first Session Topic is “Epidemiology of emerging viral disease.” The brochure boasts about the Wuhan Institute, “Pathogenic study of emerging infectious diseases has become one of the major research fields. Great achievements have been made in animal origin studies of Severe Acute Respiratory Syndrome, *coronavirus* (SARS-CoV) and avian influenza viruses.”⁹⁹²

The Director of the Institute and two of her four deputies have extensive university training in the United States in fields involved in gain-of-function studies and biological warfare. One of the institute’s top three officials is Changcai HE, Deputy Secretary of the Party at Wuhan Branch,⁹⁹³ a high-ranking position in the Communist Party. When the pandemic surfaces in January 2020, the Wuhan Institute will be directly taken over by the military.

March 14, 2016: Pandemic Predictions and Planning Event. The prediction of a COVID-19 scenario gains scientific approval (but not validity) from a follow-up article by Menachery et al. in the *Proceedings of the National Academy of Sciences (PNAS)*. The article declares that the risk of the spontaneous emergence of a SARS-CoV pandemic pathogen is now more likely because the researchers have been able to make pathogens out of harmless bat viruses in the lab. The theory is something like this: “I could construct a plague out of an innocent virus, so now I expect nature to do it.”

May 2016: Pandemic Predictions and Planning Event. The governing body of the World Health Organization (WHO) approves the CEPI/Bill Gates *master plan* for collaborating with WHO to control the profits, organization, and governance of the coming pandemic (Chapter 15)—but WHO’s primary allegiance is to Communist China.

January 2017a: This is the year that **Pandemic Predictions and Planning Events** explode in anticipation of a coming pandemic, often identified as caused by a SARS-coronavirus.

January 2017b: Pandemic Predictions and Planning Event. Homeland Security publishes a 135-page grand plan for an interagency response to “biological incidents.”⁹⁹⁴ The plan includes the application of the Emergency Use Authorization (EUA).⁹⁹⁵

January 9, 2017: Pandemic Predictions and Planning Event. President Barack Obama’s administration officially recommends lifting the moratorium on gain-of-function (GOF) research and provides the necessary steps to be taken.⁹⁹⁶ The recommendation is made by John Holdren, White House Director of the Office of Science and Technology Policy (OSTP), also known as the Science Czar. *The American Report* identifies Holdren as an advocate of “massive-scale human population reduction measures such as adding reproductive sterilization agents to food and water supplies and enacting forced abortions in the United States.”⁹⁹⁷ President Obama’s Health and Human Services (HHS) Director, responsible for authorizing and implementing lifting of the GOF funding pause, is Sylvia Matthews Burwell, “former President of the Global Development Program and Chief Operating Officer of the Bill & Melinda Gates Foundation.”⁹⁹⁸

President Obama takes action 11 days before Donald Trump takes office and Trump is kept in the dark about it.⁹⁹⁹ On the eve of their departure, the Obama-Biden administration provides the authorizations needed for the eventual re-funding of gain-of-function research by the U.S., enabling NIH to finalize the details by the end of 2017.¹⁰⁰⁰

We only learn of this as the book goes to press. It further confirms that President Trump had nothing to do with the official resurrection of gain-of-function research. Meanwhile, Fauci had continued funding this highly dangerous research that has caused many deadly virus escapes over the years and done so despite President Obama’s moratorium. Lifting this ban was part of the January 2017 Gates-led resurgence in developing vaccines.

January 10, 2017: Pandemic Predictions and Planning Event. Ten days before President Trump’s inauguration, Fauci keynotes a Georgetown University Conference on “Pandemic Preparedness in the Next

Administration.” Fauci unequivocally declares that President Trump will “definitely” face a pandemic during his first term (Chapter 16). He expresses his certainty several times during his talk. Fauci urges the development of the corporate/government collaborations, characteristic of the future Great Reset.

The Harvard School of Public Health, which boasts of being founded in close collaboration with the Chinese Communist government, is represented by Ashish K. Jha MD. He, too, gives a talk expressing his anticipation of the coming pandemic and advocates for a global response resembling a combination of the Great Reset and Operation Warp Speed in a massive collaboration between business and government.

January 13, 2017a: Pandemic Predictions and Planning Event. The FDA announces new guidelines for its Emergency Use Authorization (EUA),¹⁰⁰¹ originally passed by Congress in response to 9/11. The new FDA regulations reinforce the high-speed development and production of medications and vaccines in an epidemic, bypassing the FDA’s usual safeguards and creating billion-dollar boondoggles for the drug companies and their investors.

January 13, 2017b: Pandemic Predictions and Planning Event. A White House planning meeting is held in which Obama Administration officials brief the Trump Administration on preparations for a global pandemic. Here is the description by the leader of the exercise:¹⁰⁰²

January 13, 2017, national security officials assembled in the White House to chart a response to a global pandemic. A new virus was spreading with alarming speed, causing global transportation stoppages, supply-chain disruptions, and plunging stock prices. With a vaccine many months away, U.S. health-care infrastructure was severely strained.

No, I didn’t get that date wrong. This happened: it was part of a transition exercise that outgoing officials from the administration of President Barack Obama convened for the benefit of the incoming team of President Donald Trump. As Homeland Security and Counterterrorism Adviser to President Obama, I led the exercise,

in which my colleagues and I sat side by side with the incoming national security team to discuss the most pressing homeland security concerns they would face.

January 20-24, 2017: Klaus Schwab holds his annual World Economic Forum (WEF) at Davos in Switzerland, where there is concern that the U.S. government under incoming President Trump with his America First populist mandate will be much less docile and subservient in its relationship with the Chinese Communist regime. In direct defiance of Trump, Schwab invites China's tyrannical dictator Xi Jinping to give the keynote address in which he is critical of America. Later, international economic and financial conferences run by Schwab and also by Michael Bloomberg will become more antagonistic toward Trump's America First policies and more fawning over the Chinese Communist Party leaders.

January 18, 2017: Pandemic Predictions and Planning Events. CEPI is officially unveiled in a press release from Schwab's Davos location as a "Global partnership launched to prevent epidemics with new vaccines."¹⁰⁰³ New sources of support are added: "*CEPI is supported by several leading pharmaceutical companies with strength in vaccines – GSK, Merck, Johnson & Johnson, Pfizer, Sanofi and Takeda, plus the Biotechnology Innovation Organisation.*" *From the beginning, all this planning has been about making money from vaccines, along with imposing the government, philanthropic, and corporate governance called the Great Reset.*

The agenda also has that prevailing progressive veneer to it: "Just over a year ago 193 states adopted the Sustainable Development Goals—the roadmap for the future we want."

January 24 and March 2017: Pandemic Predictions and Planning Events. At Schwab's Davos Conference and later in Schwab's office at the World Economic Forum, Bill Gates describes his preparations for an inevitable, forthcoming pandemic (See Chapter 15). Gates unveils a new fund called the Coalition for Epidemic Preparedness Innovations (CEPI). It is founded by the Bill & Melinda Gates Foundation and announced by Gates at Klaus Schwab's 2017 World Economic Forum, which is a cofounder. This confirms the vaccine boondoggle is closely linked to what will become the totalitarian Great Reset popularized by Schwab.

CEPI will become a multibillion-dollar collaboration between large private donors and corporations, the U.N., and national governments to research and manufacture vaccines for the much-anticipated pandemic. Empowered by the 2017 FDA guidelines for Emergency Use Authorization, Gates describes the need for bypassing federal regulations to produce vaccines in a process that takes “less than a year.” He mentions Moderna as one of the key corporations already working on new platforms for “novel” vaccines, which he describes as based on either “RNA” or “DNA.”

In short, Bill Gates indicates in January 2017 that he has already invented, invested in, and started implementing a project identical to what will be “unveiled” as Operation Warp Speed three years later by President Trump and Fauci. Gates announces his preparations for a superspeed vaccine project in the context of the corporate/governmental capitalism that Schwab will popularize as the Great Reset. These plans will run roughshod over any concern about democratic processes or liberty—the heart of human progress.

Gates is not alone as a predator. Of the top American billionaires, all but Larry Ellison, the founder of Oracle, seem eager to sell out America in favor of China. Unfortunately, Ellison’s own Silicon Valley employees reject his patriotism and concerns about China and oppose his politics. All the top American corporations are desperate to keep growing their wealth and power through unrestricted business with the Chinese Communists, who are, in turn, conducting unrestricted warfare against America.

February 18, 2017: Pandemic Prediction and Planning Events. At the Munich Security Conference, Bill Gates makes the following predictions:¹⁰⁰⁴ “The next epidemic could originate on the computer screen of a terrorist intent on using genetic engineering to create a synthetic version of the smallpox virus ... or a super contagious and deadly strain of the flu.” “Whether it occurs by a quirk of nature or at the hand of a terrorist, epidemiologists say a fast-moving airborne pathogen could kill more than 30 million people in less than a year. And they say *there is a reasonable probability the world will experience such an outbreak in the next 10 to 15 years.*” (Italics added.)

He also spoke of the need for vaccines, explaining: “Most of the things we need to do to protect against a naturally occurring pandemic are the same things we must prepare for an intentional biological attack.”

March 2017: Pandemic Predictions and Planning Event. *The Lancet Infectious Diseases* positions CEPI as the central funding and organizing center for pandemic preparation.

July 21, 2017: Pandemic Predictions and Planning Event. In June 2021, we discover the master plan for CEPI, which more recently led to the discovery of the original *CEPI: Preliminary Business Plan* (see Chronology, January-November 2017 and Chapter 15). Interim CEO of CEPI, John-Arne Røttingen, presents an astonishing 21-page PowerPoint presentation to the World Health Organization Association.¹⁰⁰⁵ The document confirms and strengthens all the points made in the book about the advanced planning, including the enormous profits assigned to Bill Gates. A table gives a broad description of the global predators, leaving out only Communist China, who works through WHO. CEPI describes how it will divide up the world with WHO during the coming pandemic. Among the more than 20 large entities described, only one person is mentioned, “Gates,” who will participate in “Development/Licensure.” CEPI will take control over everything except setting healthcare and scientific standards, which will be the task of WHO. The plan springs a great deal from Gates’ inspiration and determination—with no regard whatsoever that these plans are being made for all humanity by people with no elected or appointed status to do so. It also continues to be clear it’s all about making a fortune and increasing power and control through vaccines.

October 2017: Pandemic Predictions and Planning Event. The Johns Hopkins University (JHU) Bloomberg School of Public Health releases an important in-depth projection on how to deal with a coming “coronavirus” pandemic with vaccines. The title of the forecast plays on SARS: *The SPARS Pandemic, 2025-2028*. The fictional vaccine, named Corovax, plays on coronavirus. This is *not* the more famous Event 201, which will be conducted live in October 2019 as a wargame against the coronavirus. *The Spars Pandemic* puts more emphasis on pushing the vaccines for the coronavirus—*three years ahead of COVID-19*.

December 8, 2017: Dr. Tal Zaks, Moderna’s Chief Medical Officer, compares mRNA to a “line of code” in a computer program and declares that,

with the new mRNA vaccines used experimentally for cancer treatment, “we are actually hacking the software of life.”¹⁰⁰⁶ Transhumanism and vaccine technology unite.

March 20, 2018: A scientific review describes a huge upsurge in mRNA vaccine research, ringing in “a new era in vaccinology.”¹⁰⁰⁷ A table reveals that Moderna (an upstart born in 2010) is being funded by the Bill & Melinda Gates Foundation, by DARPA, and by BARDA. DARPA does “advanced research” for the Department of Defense. BARDA will become the government agency for implementing Operation Warp Speed and the giveaway of billions of dollars to pharmaceutical corporations in the style of the Great Reset. The table also reveals that Gates is involved with CureVac AG, which is in partnership with several other companies, including Johnson & Johnson. Cure Vac AG is supported by the Gates brainchild, the investment fund CEPI,¹⁰⁰⁸ and with other corporations, creating a great tangle of complex business interests involving vaccines.

The scientific review warns that moving from animal to human research has been stymied by two problems. One problem involves “rare cases of severe injection site or systemic reactions” from mRNA, requiring further preclinical and clinical studies into “systemic inflammation.” The other problem is ineffectiveness in generating immunological responses in humans. Individual scientific reports give an even more dismal picture. Evidence mounts that the billionaires, drug companies, and government agencies are making an enormously bad bet on mRNA vaccines, but the commitment to and the momentum for marketing these dangerous, experimental vaccines leaves no room for turning back.

April 27, 2018: Pandemic Predictions and Planning Event. Gates gives an honorific address sponsored by the Massachusetts Medical Society and the *New England Journal of Medicine* titled:¹⁰⁰⁹

**Ring the Alarm: The next epidemic is coming.
Here’s how we can make sure we’re ready.**

Gates describes the marshalling of forces that he, Fauci, and others are in fact carrying out in anticipation of the seemingly inevitable pandemic:

The world needs to prepare for pandemics the way the military prepares for war. This includes simulations and other preparedness exercises so we can better understand how diseases will spread and how to deal with things like quarantine and communications to minimize panic.

October 2018. Pandemic Predictions and Planning Event. The Johns Hopkins Bloomberg School of Public Health, Division of Health Security, is the source of all JHU pandemic planning events. A terrifying book titled *Technologies to Address Global Catastrophic Biological Risks*¹⁰¹⁰ describes developing projects for dealing with upcoming pandemic threats, specifically including, but not exclusively, “SARS and MERS coronaviruses.” It is a blueprint for how to take control of society and to enforce vaccines despite public opposition.

The Bloomberg School of Public Health book becomes chilling when it goes on to advocate solutions that have been previously ridiculed as conspiracy theories:

Self-Spreading Vaccines: Self-spreading vaccines are genetically engineered to move through populations like communicable diseases, but rather than causing disease, they confer protection. The vision is that a small number of individuals in a target population could be vaccinated, and the vaccine strain would then circulate in the population much like a pathogenic virus, resulting in rapid, widespread immunity.¹⁰¹¹

Furthermore, the Hopkins report sees this technology as posing lethal risks about which their only concern seems to be alienating public opinion:

Finally, there is a not insignificant risk of the vaccine virus reverting to wild-type virulence, as has sometimes occurred with the oral polio vaccine—which is not intended to be fully virulent or transmissible, but which has reverted to become both neurovirulent and transmissible in rare instances. This is both a medical risk and a public perception risk; the possibility of vaccine-induced disease would be a major concern to the public.¹⁰¹²

As Ginger Breggin says, “Yesterday’s conspiracy theories keep becoming today’s headlines.”

2019: Pandemic Predictions and Planning Event. Fauci’s NIAID, predominantly through Peter Daszak’s EcoHealth Alliance, awards four more years of coronavirus research, including gain-of-function studies. The current funding goes through 2021, and the project through 2025.¹⁰¹³

January 2019: Pandemic Predictions and Planning Event. Klaus Schwab’s World Economic Forum (WEF) teams up with the Harvard Global Health Institute to publish an extensive white paper titled *Outbreak Readiness and Business Impact—Protecting Lives and Livelihoods across the Global Economy*.¹⁰¹⁴ The Harvard Global Health Institute is led by Ashish K. Jha, who joined Fauci on January 10, 2017, to predict that there would be a pandemic during the then upcoming administration of Donald Trump and later attacks all early treatment of COVID-19 and the frontline physicians.

In warning about future threats, the WEF/Harvard white paper twice mentions “coronaviruses” and seven times refers to “SARS.” The purpose of the report is summed up in the sentence, “The societal threat posed by epidemics provides a compelling platform for engagement across the public and private sectors.”

Pandemics are seen as the ultimate way of enforcing what Klaus Schwab will soon unveil as the Great Reset and what we call corporate-government fusion. The goal is to enable totalitarian control that bypasses or crushes the legal protections and liberty represented by the United States of America as a patriotic democratic republic.

May 1, 2019: Pandemic Predictions and Planning Event. More than six months before the outbreak in China, a bill was introduced in the House of Representatives that led to a proposed \$100 billion program to force epidemic tracking on Americans.¹⁰¹⁵ The bill was “COVID-19 Testing, Reaching, And Contacting Everyone (TRACE) Act,” and its remarkable number was HR 6666.¹⁰¹⁶ It was criticized as a grave move toward totalitarianism¹⁰¹⁷ and was not passed. Although there is evidence Gates influenced the creation of the bill, there is no evidence it would finance his activities. This bizarre bill adds to the mounting evidence for active preparation for the coming pandemic.

September 2019. Pandemic Predictions and Planning Event. *A World at Risk: Annual Report on Global Preparedness for Health Emergencies by the Global Preparedness Monitoring Board (GPMB)*¹⁰¹⁸ is a book sponsored by The World Health Organization and the World Bank with acknowledgments to familiar globalist organizations like the Johns Hopkins University Center for Health Security and Wellcome Trust. Emphasis is placed on rapid, innovative vaccine development, and include “surge manufacturing” of “nucleic acid types” which will be “pre-tested and approved for us within weeks.” This once again anticipates Operation Warp Speed.

Members of the Board of GPMB include Anthony Fauci; Chris Elias, President, Global Development Program; Bill & Melinda Gates Foundation, USA; George F. Gao, Director-General, Chinese Center for Disease Control and Prevention, People’s Republic of China; and many other high-ranking officials from around the world. This first annual report comes out shortly before the pandemic breaks out in China.

October 2019: Pandemic Predictions and Planning Event. The Johns Hopkins Bloomberg School of Public Health—which two years earlier published *The SPARS Pandemic, 2025-2028*—now holds a much-publicized pandemic simulation. Called Event 201, it physically brings together representatives of governments, corporations, and investors collaborating in wargame style against a pandemic caused by a SARS-CoV virus. Event 201 is sponsored by two of the most influential global predators: Bill Gates and Klaus Schwab. It is also associated with Michael Bloomberg for whom the School of Public Health is named. Participants include the director-general of the Chinese CDC and major global corporations. It deepens the connections between pandemic preparation, Schwab’s Great Reset, and Bill Gates’ Warp Speed-like program. The top theme is “**Governments, international organizations, and businesses should plan now for how essential corporate capabilities will be utilized during a large-scale pandemic.**”¹⁰¹⁹

November 2019: In a direct assault on President Trump’s policies and diplomacy, Bloomberg holds his second New Economy Forum in *Beijing, China*¹⁰²⁰ at which China’s dictator Xi Jinping makes a smiling appearance. The conference is cosponsored by the Chinese Communists, and the theme is on “recoupling” with China. “Funding Partners” include 3M, Exxon Mobile, FedEx, HSBC, Hyundai, and MasterCard. Shortly after the conference,

Bloomberg announces his candidacy for President of the United States, a nation he is consciously sacrificing for the wealth he can generate with the Chinese Communists.

December 1, 2019: Cases of viral pneumonia begin showing up in China, although retrospectively there would be reports of possible cases in November or even earlier. The pandemic will become a boon to all the globalists and the Chinese Communists, whose 400 billionaires will grow their wealth by an *average* of 60% in the first year of COVID-19.

January 2020: Pandemic Predictions and Planning Event. With the same title as the 2017 book by Johns Hopkins, *The SPARS Pandemic* is published as a monograph in the *Journal of International Crisis and Risk*.¹⁰²¹ It has a new subtitle and focus: “A Futurist Scenario to Facilitate Medical Countermeasure Communication.” As in the original book, the star vaccine is Corovax. Emphasis is given to communicating with the public to overcome criticism of the vaccines and to gain compliance with vaccinations. Because of the time it takes to get a journal article published, this scientific publication that originated in 2019 or earlier becomes another amazing prediction and planning event.

January 2020a: The Wuhan Institute is openly taken over by China’s People’s Liberation Army under General Chen Wei, a leading expert in biochemical weapons and bioterrorism.¹⁰²² However, under the Chinese policy of military-civil fusion (MCF), for several decades all the activities of the Institute were already inseparable from the military.¹⁰²³ A State Department memo describes military-civil fusion:¹⁰²⁴

As the name suggests, a key part of MCF is the elimination of barriers between China’s civilian research and commercial sectors, and its military and defense industrial sectors. The CCP is implementing this strategy, not just through its own research and development efforts, but also by acquiring and diverting the world’s cutting-edge technologies—including through theft—in order to achieve military dominance.

January 2020b: Multiple scientific sources within China conclude that SARS-CoV-2 is a chimeric or man-made virus based on, among other things,

the artificially tailored spike inserted into the virus which enables it to attack humans and is not found in nature. China begins censoring, punishing, and “disappearing” doctors, scientists, and journalists who describe the pandemic or identify its source as the Wuhan Institute.¹⁰²⁵ One researcher rejects his original conclusions, one physician dies, and another disappears. One courageous scientist flees to America to tell the truth. WHO covers up for the Chinese and repeats their lies. From now on, the entire array of globalists who dominate Western governments, media, educational institutions, medicine, and science will declare that the Wuhan Institute of Virology was not the origin of the virus and that it came from nature. Social media begin deleting or taking down comments calling SARS-CoV-2 the Chinese virus or attributing it to the Wuhan Institute. It is labeled a baseless conspiracy theory.

However, the Communist institute has been creating virulent SARS-Coronaviruses from before 2015, some in collaboration with U.S. scientists and many on its own. Anthony Fauci’s NIAID and Francis Collins’ NIH fund the collaborative research with the Chinese Communists, and they also fund individual Chinese researchers working in the Wuhan Institute. Every Chinese researcher works under the control of the Chinese Communists and their army, and the Wuhan Institute is essentially a military facility. Beyond that, the Wuhan Institute is notoriously insecure, and Chinese research facilities have had numerous leaks of SARS-CoV and other viruses in the past.

January 21, 2020: The Chinese Communists belatedly admit human-to-human transmission of the new coronavirus, and the U.S. CDC confirms the first case in America.

January 23, 2020: Years of Planning Take Off Faster than the Pandemic.

January 23, 2020a: Pandemic Predictions and Planning Event. *CEPI makes a stunning announcement from its Norway office,¹⁰²⁶ indicating how fully prepared the global predators have become after at least three years preparation for the arrival of the anticipated pandemic. We label this announcement a **Pandemic Predictions and Planning Event** because the virus has not yet been named SARS-CoV-2 and no one is as yet confirming a serious worldwide pandemic. Furthermore, the program would not be able to get its anticipated government*

funding unless there are no effective treatments. Nonetheless, CEPI barrels ahead with the help of Moderna and Fauci's NIAID:

CEPI, the Coalition for Epidemic Preparedness Innovations, today announced the initiation of three programmes to develop vaccines against the novel coronavirus, nCoV-2019.

The programmes will leverage rapid response platforms already supported by CEPI as well as a new partnership. The aim is to advance nCoV-2019 vaccine candidates into clinical testing as quickly as possible....

In addition, CEPI today announces a new partnership with Moderna, Inc., (Nasdaq: MRNA) and the U.S. National Institute of Allergy and Infectious Diseases.

So Bill Gates and Klaus Schwab as CEPI founders were now official partners with Anthony Fauci!

January 23, 2020b Moderna announces a collaborative effort with the National Institutes of Health to use its genetic drug development platform to fast-track an experimental vaccine in less than a year.¹⁰²⁷ (A recent approval for an Ebola vaccine took two decades!¹⁰²⁸)

Summing up the events of the day, CEPI has new partnerships with Moderna and NIAID. Now Moderna is also in partnership with NIAID and NIH, and NIH owns and profits from a large piece of Moderna's patents for the vaccine.¹⁰²⁹ And Bill Gates more or less tells them all what to do, including CEPI, Moderna, NIH, and Fauci's NIAID.

January 23, 2020c: An article in *JAMA*¹⁰³⁰ coauthored by Anthony Fauci pushes the false narrative of an emergence of a dangerous coronavirus from nature despite his NIAID funding research on creating pathogenic CoVs near the site of the co-called emergence. He also advances the unproven "suspicion" that the original SARS epidemic of 2002-2004 emerged from nature. The article concludes, "The emergence of yet another outbreak of human disease caused by a pathogen from a viral family formerly thought to be relatively benign underscores the perpetual challenge of emerging infectious diseases and the importance of sustained preparedness." Actually, *no* SARS-CoV

viruses have ever been found in nature or proven to have emerged from nature to cause an epidemic.

January 30, 2020: WHO reports 7,818 total confirmed SARS-CoV-2 cases worldwide with a risk assessment of *very high* for China and *high* at the global level.

January 31, 2020: President Trump, against Fauci's resistance, bans all traffic from China except returning U.S. citizens.

Early February 2020: Pandemic Predictions and Planning Event. NIH describes how fully prepared the establishment was for the coronavirus pandemic:¹⁰³¹

Years before the COVID-19 pandemic began, experts at the NIH Vaccine Research Center (VRC) were studying coronaviruses to find out how to protect against them. The scientists chose to focus on one "prototype" coronavirus and create a vaccine for it.... The VRC worked with a company called Moderna [*Bill Gates*] to use this information to quickly customize their prototype approach to the SARS-CoV-2 spike protein. *By early February, a COVID-19 vaccine candidate had been designed and manufactured.* This vaccine is called mRNA-1273. By March 16, 2020, this vaccine had entered the first phase of clinical trials. Other vaccines, including a similar one from Pfizer and BioNTech SE [*partnered with China*], entered clinical trials not long after. (Brackets and italics added.)

The "design" and "manufacture" of a specific coronavirus vaccine within days after the identification of the pandemic in early February is either the luckiest guess ever made by mankind, a miracle, or the product of huge investments made with great planning and specific foreknowledge of when the SARS-CoV would be released.

February 4, 2020: CDC sends out its test kits for COVID-19 and independent labs find they do not work. CDC bumbling delays America's response to the pandemic by several weeks as public health officials fly blind, unable to confirm hot spots. It's one of multiple CDC botches to come.¹⁰³²

February 19, 2020: The esteemed British journal *The Lancet* publishes a letter organized by Peter Daszak from more than two dozen professionals fawning over China and rejecting any aspersions cast upon the Communist regime. It rejects the “conspiratorial” accusation that SARS-CoV-2 leaked from the Wuhan Institute. This event epitomizes how global predators in the medical and scientific communities consciously organized to put Communist China’s image above scientific truth and the well-being of America and all humanity.

March 2020a: The Trusted News Initiative is launched in December 2019 by the BBC to “protect audiences and users from disinformation, particularly around moments of jeopardy, such as elections.” Its goal is to censor anything positive toward President Trump or European populism in the coming elections. However, it soon takes on COVID-19 “disinformation.” As of March 2021, the “partners” are “BBC, Facebook, Google/YouTube, Twitter, Microsoft, AFP [a news agency], Reuters, European Broadcasting Union (EBU), Financial Times, The Wall Street Journal, The Hindu, CBC/Radio-Canada, First Draft [leftwing disinformation group], Reuters Institute for the Study of Journalism.” Their aim: “An industry collaboration of major news and tech organizations will work together to rapidly identify and stop the spread of harmful Coronavirus disinformation.”¹⁰³³ In August 2020, to work against Trump’s re-election, they will be joined by projects with the *AP*, *The New York Times*, and *Washington Post*.¹⁰³⁴ Their motto should be, “Global predators of the world unite!”

March 2020b: The health bureaucracy worldwide takes action to suppress the use of hydroxychloroquine or any other inexpensive, safe, and effective medications to treat COVID-19 patients, including early, at-home treatment. The suppression is most harsh in wealthy Western nations (who will pay for the development and use of very expensive vaccines).

The active suppression of lifesaving treatments by so many trusted authorities seems preposterous and beyond the imagination. Letting patients die for lack of treatment and murderously overdosing patients to discredit good treatments are such extreme activities that they beg for the full analysis provided in this book. Here is a brief analysis:

The January 2020 Emergency Use Authorization (EUA) act, which enables Operation Warp Speed and the related escalation toward the Great

Reset, has a catch in it. The catch is that the stupendous taxpayer gift to the pharmaceutical industry and its investors under the Emergency Use Authorization cannot go into effect if there are already existing, safe, and effective treatments. *To this day, if hydroxychloroquine and any other array of treatments are recognized by the government as safe and effective for COVID-19, Operation Warp Speed and the Great Reset will lose their legal justification under the Emergency Use Authorization.*

The second reason for stopping all effective treatments for COVID-19 is to make people believe they must take vaccines. *If almost everyone recovers with the available treatments, there will be no rush to take highly experimental, very dangerous, and very expensive vaccines.*

The third reason for making COVID-19 seem untreatable is that the globalists need to keep Americans terrified and docile. The fear of COVID-19 is justifying a totalitarian shutdown or lockdown of America—the one great nation standing in the way of the global predators. This unscrupulous motivation for weakening America is verified by the globalist thought leader, Klaus Schwab, in his book *COVID-19 and the Great Reset* in July 2020. Schwab devotes many pages to explaining that the existence of a strong, patriotic democratic republic like the United States, and especially under President Donald Trump, will thwart the ambitions of the globalists to rule the world through corporate-government fusions.

March 2020c: Family physician Vladimir Zelenko MD, the author of one of the introductions to this book, searches the scientific literature and contacts physicians worldwide, concluding that hydroxychloroquine with additional medications and therapeutics is a very safe and effective treatment for COVID-19. He successfully treats thousands of patients in his office north of New York City. He communicates with President Trump and becomes friends with Rudy Giuliani; however, he meets so much opposition from officials in New York City and fearful people in his community that he is forced to leave his clinic and his hometown.

March 11, 2020a: On this day, WHO declares a pandemic.¹⁰³⁵ On the same day, testifying before Congress, seeking increased funding, Anthony Fauci declares that the lethality of COVID-19 is “ten times” the “seasonable flu.”¹⁰³⁶

The flu has a mortality rate of 0.1 percent. This has a mortality rate of 10 times that. That's the reason I want to emphasize we have to stay ahead of the game in preventing this.

But Fauci had come to much more benign conclusions eleven days earlier in a scientifically documented editorial published online on February 28, 2020, and then republished in hard print on March 26, 2020, in the *New England Journal of Medicine*. Citing specific studies, Fauci declares:¹⁰³⁷

If one assumes that the number of asymptomatic or minimally symptomatic cases is several times as high as the number of reported cases, the case fatality rate may be considerably less than 1%. This suggests that the overall clinical consequences of COVID-19 *may ultimately be more akin to those of a severe seasonal influenza (which has a case fatality rate of approximately 0.1).*

Which Fauci are we to believe, the one writing a science-based editorial or the one testifying before Congress? The answer is simple—neither one. Fauci always speaks politics to serve his masters and never science to serve the truth.

Actually, COVID-19 is much less dangerous than the flu for people under age 55, and for children, teenagers, and young adults it is a negligible or absent threat. Most deaths occur in patients over 80 who are suffering from other physical disorders. However, with adequate medical treatment—completely opposed by Fauci—deaths in older people can be and are enormously reduced.

March 11, 2020b: “Dr. Anthony Fauci shared a [virtual] platform with a Chinese Communist Party ‘health expert,’ and it went largely unreported by any Western media outlets. Chinese state media, on the other hand, could not get enough of it, because Fauci delivered a propaganda coup for the communist regime in Beijing.”¹⁰³⁸

March 13, 2020: President Trump, again with resistance from globalists who want to grow international commerce and to weaken America, bans travel from Europe except for U.S. citizens returning home.

March 19, 2020a: California becomes the first state to order a lockdown. This marks the beginning of the tragedy of increasing top-down government

control in the United States that weakens America and accustoms its citizens to greater docility and subservience, while the global predators simultaneously bloat themselves with increased wealth, grandiosity, and power.

March 19, 2020b: At a press conference on COVID-19, President Trump reports positive news from other countries, including China, showing the effectiveness of hydroxychloroquine against COVID-19. His support of hydroxychloroquine leads the progressive anti-Trump media to further deride it as “Trump’s drug.” One commentator on Fox News, Neil Cavuto, almost hysterically accuses President Trump of killing people, warning that anyone who is even taking hydroxychloroquine as a preventive like the President, “it will kill you, I cannot stress enough, it will kill you.”¹⁰³⁹

March 23-24, 2020. Hydroxychloroquine is urgently needed throughout the country as a preventive measure for vulnerable people, to save individual lives of people infected with COVID-19, to reduce hospital admissions and deaths, and to cut short and defeat the pandemic. President Trump’s Secretary of HHS Alex Azar directs his deputy, Rick Bright, to make hydroxychloroquine available from the U.S. National Stockpile.¹⁰⁴⁰ Deputy Bright instead colludes with the FDA’s Janet Woodcock to sabotage hydroxychloroquine by restricting its use to hospitalized patients, when its proven worth is in early treatment. Trump is repeatedly stymied by the embedded globalist bureaucracy at the cost of thousands of American lives and a violent lockdown that wrecks individual lives, family life, society, and the economy.

March 25, 2020: New York Governor Cuomo signs an order requiring unprepared and ill-equipped nursing homes to accept COVID-19 patients, turning the facilities into death traps. A year later, in March 2021, Cuomo will be accused by his own administrator of suppressing the number of deaths, raising the actual tragic number from 5,000 to 10,000 or more fatalities.

Cuomo also issues one of the most restrictive executive orders in the country to prevent access to hydroxychloroquine for the treatment of COVID-19 patients.¹⁰⁴¹ Cuomo’s leadership will influence Democratic governors around the nation to repeat his mistakes, resulting in many thousands of unnecessary deaths.

April 3, 2020: The CDC reverses its earlier policy and recommends wearing face masks in public spaces and indoor gatherings. There is no scientific basis for these requirements, but wearing masks is an effective tool to frighten and demoralize people, isolating them and making them more submissive. Fauci also reverses his original March 8, 2020 statement that “there’s no reason to be walking around with a mask.” At no time does Fauci or the CDC produce scientific documentation for their stands on face masks, and scientific reviews show they do more harm than good outside of healthcare facilities (Chapter 12).

April 7, 2020: Dr. Deborah Birx confirms that CDC is counting deaths of people *with* coronavirus as *caused* by coronavirus regardless of other comorbid, underlying, or primary causes: “So, I think in this country we’ve taken a very liberal approach to mortality.... the intent is right now that those if someone dies with COVID-19 we are counting that as a COVID-19 death.”¹⁰⁴²

April 8, 2020: New Jersey becomes the first state to require customers and employees to wear face masks at essential businesses and construction sites.

April 11, 2020: The *Journal of the American Medical Association* (JAMA) rushes to put online a study from Brazil purporting to show that chloroquine (the earlier version of hydroxychloroquine) killed many COVID-19 patients. An examination of the prepublication paper and the published paper shows the victims were killed by systematic, substantial overdoses of the drug until an oversight committee stopped the murderous experiment. JAMA never retracts the criminal study, which makes American doctors terrified of giving hydroxychloroquine to their patients.

April 14, 2020: President Trump announces the U.S. will withdraw funding from WHO for covering up China’s lies early in COVID-19 and for other pro-Chinese actions. Bill Gates criticizes Trump and quickly makes himself the second biggest contributor to WHO after the Chinese Communist Party.

April 14-15, 2020: The Breggins discover the 2015 scientific paper by Menachery showing that Fauci-funded U.S. scientists in 2015 were

collaborating with top Wuhan Institute scientists to make lethal SARS-CoVs in American and Wuhan labs. We publish a blog and a video,¹⁰⁴³ and send them to the media and to close allies of President Trump. Two days later, on April 1st, President Trump stops the Fauci-funded collaborative research with the Chinese Communists.

In the blog and video, we point out that the 2015 SARS-CoV is “extremely closely related” to SARS-CoV-2 in its clinical effects. We warn in the video that the 2015 SARS-CoV resisted treatment in mice. We also warn that some of the older vaccinated mice became severely ill and died when exposed to the SARS-CoV virus—a warning yet to be heeded by NIAID, FDA, and CDC.

We emphasize that the Wuhan Institute is run by the Chinese military. We already believe that SARS-CoV-2 came from the Wuhan Institute as a pathogen from the line of those being made in 2015 in the U.S./China collaboration.

April 16, 2020: The U.S. Government through BARDA (in HHS), under Rick Bright, awards Moderna \$483 million “to Accelerate Development of mRNA Vaccine (mRNA-1273) Against Novel Coronavirus.”¹⁰⁴⁴ The U.S. taxpayer is paying for Moderna’s clinical trials, which have not yet begun.

May 15, 2020: President Trump, with Fauci over his shoulder, announces Operation Warp Speed. The program mimics everything Bill Gates announced in January 2017 and is wholly consistent with what Schwab will call the Great Reset with its corporate-government fusions. There is no indication that President Trump knows that the whole idea of Operation Warp Speed was planned and organized years earlier by Bill Gates with Moderna and other investors, confident of a coming vaccine bonanza from the predicted or planned pandemic.

June 3, 2020: Schwab enlists John Kerry and Prince Charles to announce the Great Reset.

July 2020: A team made up of Chinese researchers, with the addition of Baric from North Carolina, publishes a scientific paper about engineering a SARS-CoV-2 into one that causes an unusually high death rate in mice due to encephalitis (see Chapter 3).¹⁰⁴⁵ Baric continues *making even more dangerous SARS-CoV pathogens with the Chinese Communists.*

July 14, 2020: Schwab releases his book *COVID-19 and The Great Reset*. He touts it as exploring “the far-reaching and dramatic implications of COVID-19 on tomorrow’s world, and advocates for a ‘Great Reset’ in the economy and society.”¹⁰⁴⁶ Note the direct use of COVID-19 to promote the new world order of the Global Reset—something the globalists have been building toward for many decades. Schwab describes how globalism is making strides under COVID-19 but is now deeply threatened by American populism and similar trends in Europe. He warns that the success of globalism depends on stifling America’s democratic, patriotic revival under President Trump.

July 15, 2020: Moderna becomes the first drug company to begin clinical trials and announces supposedly successful results in the initial trials. Moderna, remember, was already being promoted by Bill Gates in January through March 2017 as a drug company preparing novel vaccines on rush platforms for the coming great pandemic. The many years of investment, scientific research, and organizational planning by Bill Gates, Klaus Schwab, Michael Bloomberg, Moderna, Fauci, and other globalists are coming to fruition.

July 22, 2020: In a \$1.95 billion deal, the U.S. buys 100 million doses of Pfizer’s vaccine with an option for 500 million MORE—five months before it is approved.^{1047, 1048}

July-August 20, 2020: Attorney Tom Renz asks Dr. Peter Breggin to write a medical-legal report in support of an injunction to stop the oppressive, unending emergency measures in Ohio and other states. Renz succeeds in getting his lawsuit accepted by the court, beginning a nationwide series of legal actions, and the Breggins begin this book. The injunction will cause the governor to halt his emergency edict but not his oppressive activities.

August 7, 2020: Led by Peter A. McCullough MD, a large team of physicians and researchers publish an article in the *American Journal of Medicine* that presents a pathophysiological basis for understanding the existing, safe, and effective early treatment options for COVID-19.¹⁰⁴⁹ The study carefully outlines a treatment approach that includes hydroxychloroquine in combination with other antiviral medications and zinc, and with prednisone

and anticoagulating drugs when necessary. *The government and the medical and scientific establishment continue to withhold from doctors and patients any adequate form of lifesaving, early treatment.*

Late August 2020: CDC admits that only 6% of COVID-19 death certificates have only one cause of death listed and for the other 94% there are an average of about 2.5 comorbidities per patient, many of which could have been the primary cause of death (Chapter 8).¹⁰⁵⁰ The inflation of death rates is to frighten people into taking vaccines. The obscure and uniquely inadequate process of counting also makes accurate accounting impossible.

September 2020: Continued warnings about lethality of the COVID-19 vaccines. In the midst of Operation Warp Speed, another major review warns that the vaccines “being expedited through preclinical and clinical development” could “exacerbate COVID-19 through antibody-dependent enhancement (ADE).”¹⁰⁵¹ That is, being vaccinated and then exposed to COVID-19 can produce unusually severe respiratory disease related to the cytokine cascades (storms) of severe COVID-19 (Chapter 11). Fauci, Gates, Moderna, Pfizer—everyone knowingly putting any of the vaccines through Operation Warp Speed—are acting recklessly and their actions will lead to thousands of deaths in the U.S. and around the world.

September 14, 2020: An interview with Gates describes him as not a “fan” of President Trump but closer to Fauci.¹⁰⁵²

September 14, 2020: Li-Meng Yan MD, PhD—who recently escaped from China—and three colleagues publish a paper linking SARS-CoV-2 to a chain of Chinese and American research going back to 2013 and to the Wuhan Institute from which it was released.¹⁰⁵³

October 2020: Peter A. McCullough MD, MPH, Jane Orient MD, and Elizabeth Lee Vliet MD (the writer of the document) jointly author *A Guide to Home-Based COVID Treatment: Step-By-Step Doctors’ Plan That Could Save Your Life*. The free, regularly updated booklet is distributed by the Association of American Physicians and Surgeons (AAPS), but it is suppressed by the mainstream media, social media, the medical and scientific establishment, and every other global predatory institution in America and the world.

October 8, 2020: Li-Meng Yan MD, PhD and her colleagues put a second paper onto the internet, “SARS-CoV-2 Is an Unrestricted Bioweapon: A Truth Revealed through Uncovering a Large-Scale, Organized Scientific Fraud.”¹⁰⁵⁴

November 12, 2020: *JAMA Network* issues a preliminary analysis that fluvoxamine vs. placebo is helpful for outpatient early treatment of COVID-19. Fluvoxamine is an SSRI antidepressant with an especially strong profile of adverse effects that include mania, hypomania, and violence¹⁰⁵⁵ and has gone out of favor in the U.S. Eric Harris, the Columbine High School shooter, was taking fluvoxamine at the time he perpetrated the mass murders. My medical/legal analysis of his medical and related records—made available to me as a medical expert—found that Harris deteriorated while taking the antidepressant for months leading up to the day of the mass murders, with an increase in his dose not long beforehand. On the day of the shootings, he probably continued to take the medication. In the autopsy after his death by suicide at the scene of the murders, Harris had an effective concentration of fluvoxamine in his bloodstream. The coroner ironically described it as a “therapeutic” level.

For those who find it difficult during COVID-19 to believe that the media and pharmaceutical industry work together to deceive the public, the press uniformly ignored the story or falsely reported that Harris was not taking antidepressants at the time of the shootings. That was back in mid-1999.

November 16-19, 2020: Michael Bloomberg’s annual New Economy Forum (NEF) is held virtually. The Chinese Communist Party is again a cosponsor. The theme is defiance of President Trump’s policies and the necessity of recoupling China with the world’s billionaires and giant corporations. Top global corporate executives are lending their support, including McDonald’s, IBM, MasterCard, FedEx, Prudential, Goldman Sachs, Honeywell, and numerous huge banks. The Clintons are there and so is Bill Gates.

November 19 and December 8, 2020: The U.S. Senate Oversight Committee for Homeland Security and Government Affairs under Senator Ron Johnson holds two hearings with extremely well-qualified medical experts testifying under oath about the effective, early, home-based treatment of COVID-19 to save lives. Videos of the Senate expert testimony are censored

by YouTube, Facebook, and Twitter, and the hearings are not covered in the mainstream media. The Democrats boycott and attack the hearings and the participants. Every effort is made to continue keeping the American people in the dark about inexpensive, safe, and effective treatments for COVID-19.

November 20, 2022: WHO gives “a conditional recommendation against the use of remdesivir. This means that there isn’t enough evidence to support its use.” This undermining of another treatment is almost certainly aimed at increasing the necessity of the vaccines. The global predators are putting all their emphasis on vaccines for gaining enormous profits and enforcing more fear and greater top-down government, especially in America.

November 24, 2020: Following the election of Joe Biden, which is an absolute necessity for the triumph of the global predators, the Great Reset becomes U.S. policy. At Schwab’s 2020 World Economic Forum, John Kerry—Biden’s special consultant, cabinet member, and Climate Envoy—makes the final connection. He declares, “In effect, the citizens of the United States have just done a Great Reset. We’ve done a Great Reset.”

December 3, 2020: John Ratcliffe, Director of National Intelligence for the U.S., states:¹⁰⁵⁶

If I could communicate one thing to the American people from this unique vantage point, it is that the People’s Republic of China poses the greatest threat to America today, and the greatest threat to democracy and freedom worldwide since World War II.

The intelligence is clear: Beijing intends to dominate the U.S. and the rest of the planet economically, militarily, and technologically. Many of China’s major public initiatives and prominent companies offer only a layer of camouflage to the activities of the Chinese Communist Party.

I call its approach of economic espionage “rob, replicate, and replace.” China robs U.S. companies of their intellectual property, replicates the technology, and then replaces the U.S. firms in the global marketplace.

December 11, 2020: The Pfizer-BioNTech vaccine is authorized by an Emergency Use Authorization by the FDA. The Chinese are also beneficiaries through their corporate partnership with Germany's BioNTech.¹⁰⁵⁷

December 18, 2020: Moderna's vaccine is authorized for use by an Emergency Use Authorization by the FDA. NIH claims "joint ownership" of the vaccines,¹⁰⁵⁸ making it a perfect corporate-government fusion.

Late December 2020: Two scientific articles are posted online and then published in journals indicating the spike protein (S protein) alone can cause inflammation and damage to the endothelial cells in blood vessels in the body and brain in animals and humans.^{1059,1060} They document the mRNA vaccines are causing the recipient's body to produce spike proteins that are in themselves potentially very harmful to the body.

December 30, 2020: Peter A. McCullough MD, MPH and 32 other physicians and researchers—including Elizabeth Lee Vliet MD and Vladimir Zelenko MD—publish the most extensive review of the benefits of early treatment of COVID-19.¹⁰⁶¹

January 14, 2021: The Vaccine Credential Initiative (VCI) is unveiled as a coalition of big tech and big healthcare corporations, as well as WHO and others. It claims a "Trustworthy, traceable, verifiable, and universally recognized digital record of vaccination status is urgently needed worldwide to safely enable people to return to work, school, events, and travel."¹⁰⁶² It is closely involved with the Commons Project,¹⁰⁶³ which is supported by the Rockefeller Foundation and Schwab's WEF, and aims to develop a CommonPass, a vaccine and medical record passport, working with Apple Health for iOS and CommonHealth for Android. Every global predator may end up having a piece of this project and, along with it, a piece of us.

January 19, 2021: "BioNTech-Pfizer and Moderna COVID-19 vaccines sales are expected to generate \$14.7bn in revenue by 2023."¹⁰⁶⁴

February 2021: Israel experiences an escalating death rate in association with Pfizer vaccine—a controversy that continues to this day. The government remains surprisingly adamant about vaccinating the population.¹⁰⁶⁵

February 8, 2021: South Africa suspends use of AstraZeneca's COVID-19 shot after data showing it only gives protection against mild to moderate infection caused by the country's dominant coronavirus variant.¹⁰⁶⁶

March 2021: Dr. Li-Meng Yan and her colleagues publish a third paper further emphasizing that SARS-CoV-2 was released as a bioweapon in China's unrestricted warfare against the West. They describe the collusion to cover this up and answer globalist critics.¹⁰⁶⁷

By now we are in agreement with Dr. Yan. The lengthy, costly, intensive, and worldwide preparation and planning indicates an intention by the global predators, including the Communist regime, to create a coronavirus pandemic if one did not spontaneously arise. The time of the pandemic corresponds with a desperate need for the globalists and for the Communist dictatorship to assault and even depose President Trump, whose policies were undermining their power, control, and wealth.

Furthermore, the global predators, led by China, systematically took advantage of the epidemic and spread it worldwide, especially into America, in their strategy of unrestricted warfare. The pandemic has been greatly to their advantage, vastly enriching their billionaires and hence the Communist Party, helping them reduce their economically burdensome, aged population, enabling them to tighten control over their own population, weakening America, and giving them a biological weapon for current and future use against their enemies. They are especially using the pandemic to strengthen their economy in relation to the rest of the world. Through their principle of "unrestricted warfare," the Chinese Communists spread SARS-CoV-2 throughout the unsuspecting world by continuing flights with hundreds of thousands of potentially infected Chinese flown from Wuhan, Beijing, and other Chinese cities into the United States and the rest of the world. This assault continued until President Trump, on his own and against Fauci's expressed wishes, stopped the traffic from China.

March 8, 2021: We decide to put our book *COVID-19 and the Global Predators* on advance sale with a unique bonus: Everyone who buys the book immediately receives the working manuscript by email. We also periodically email updated versions to the purchasers. Within weeks, many thousands of people have bought the book prepublication and are reading the bill of particulars against Anthony Fauci and other new information in the

manuscript. Simultaneously, manuscript copies are sent to the media and critics of COVID-19 policies. Perhaps by coincidence, criticism of Fauci heats up in May and June, surrounding issues we have most fully documented.

March 9, 2021: Fauci meets “side-by-side” with Chinese medical leader Dr. Zhong Nanshan on a virtual panel sponsored by the University of Edinburgh.¹⁰⁶⁸ Nanshan has been awarded the Medal of the Republic—the highest honor bestowed by the Chinese Communist Party. Fauci declares the U.S. has been “hurt” more than any other country by COVID-19, citing falsified CDC data to prove his point. He accuses the past administration of “divisiveness.” Both men are critical of President Trump. They praise President Biden and call for global solidarity.¹⁰⁶⁹ Zhong ends his presentation by “urging other countries not to open their economies just yet, and to perhaps wait until the entire world is vaccinated, which will take a few years.” Meantime, China’s economy has been largely open for a year with a low vaccination rate.

March 19, 2021: “The PREP Act and COVID-19: Limiting Liability for Medical Countermeasures Updated March 19, 2021. To encourage the expeditious development and deployment of medical countermeasures during a public health emergency, the Public Readiness and Emergency Preparedness Act (PREP Act) authorizes the Secretary of Health and Human Services (HHS) to limit legal liability for losses relating to the administration of medical countermeasures such as diagnostics, treatments, and vaccines.”¹⁰⁷⁰ The pharmaceutical companies were already immune to vaccine lawsuits. This gives nearly complete immunity to healthcare providers. Individual and patient rights—in this instance, the right to sue healthcare providers for injuries—continue to be trampled upon.

March 26, 2021: Former CDC Director Robert Redfield states in an interview that he believes coronavirus escaped from a Wuhan lab,¹⁰⁷¹ a fact we demonstrated a full year earlier.

April 2021a: As the grip of COVID-19 propaganda on Americans begins to loosen, the Biden Administration and the Chinese Communists are collaborating in turning their attention to ramping up the Global Warming campaign to continue the weakening of America and to increase the spread of totalitarian control worldwide. John Kerry goes on a world tour to convince countries to restrict their economies to ward off global warming.¹⁰⁷²

April 2021b: Bill Gates is heavily criticized after he spontaneously states that he is against giving India, which is struggling with a resurgence of COVID-19, the legal rights or the know-how to manufacture the Oxford AstraZeneca vaccine. Gates gives reasons, but profit from intellectual property seems key.^{1073, 1074}

Behind this conflict between Bill Gates and India, there are three less noticed but ominous facts. First, one man, Bill Gates is deeply invested in and has control over at least three out of four of the world's COVID-19 vaccines—Moderna, Pfizer, and now Oxford AstraZeneca, and he is also invested in BioNTech, the German vaccine manufacturer who is partnered with Pfizer and China. Second, this one man believes his financial investments and corporate influence give him the unrestricted right to make life-and-death decisions for millions and millions of people in the world's second-largest nation. Third, as we have documented, Bill Gates is very aligned with China and WHO. India is an adversary of China. That Gates casually expresses his life-and-death decisions on a TV interview adds a bizarre and unreal aura to the whole horrifying affair.

April 15, 2021: WHO announces it will begin storing and sharing pathogens internationally, declaring “this will pave the way towards a system that will promote the rapid and timely sharing of biological materials with epidemic or pandemic potential, facilitate rapid access to pathogens, and promote equitable access to countermeasures.”¹⁰⁷⁵ *The Scientist* raises the alarm about this.¹⁰⁷⁶ This is globalism at its most irrational and terrifying. Next, will the UN begin sharing worldwide the design of nuclear weapons, which many experts consider less dangerous than biological warfare with pathogens? And how secure will be the WHO pathogen repositories?

April 24, 2021: The Biden Administration adds to India's COVID-19 crisis by refusing to lift its ban on sending India raw materials for the Oxford AstraZeneca vaccine. We do not accept Biden's claim of putting America's needs first.¹⁰⁷⁷ China is in constant conflict with India on every level, including militarily, and weakening India suits China's empire building.

April 25, 2021a: The headline in the *Financial Times* lauds the ominous declaration of China's Communist dictator at an international trade conference: “Xi warns against economic decoupling and calls for new world order.”¹⁰⁷⁸ Xi Jinping, Klaus Schwab, Bill Gates, Mike Bloomberg, the tech

companies, the big banks, and all the other global predators know that the only obstruction to their ambitions for world domination is the populist, freedom-loving, patriotic, democratic republic of the United States of America and, yes, former President Donald Trump.

April 25, 2021b: On NBC's *Meet the Press*,¹⁰⁷⁹ NIH Director Francis Collins states that Moderna's and Pfizer's vaccines cannot receive actual permanent FDA approval because more follow-up is needed "to look at any possible late safety signals. There have not been any for Pfizer and Moderna." The deaths reported to VAERS in close association to taking the vaccines have reached 3,486 after only four months.¹⁰⁸⁰ *These are extraordinarily high numbers that would take any other medicine or vaccine permanently off the market. The CDC's claim that none of these cases are actually related to the vaccines is absurd and unconscionable and can only be explained by tremendous forces impinging on the agency.*

April 30, 2021a: "CDC is transitioning to reporting only patients with COVID-19 vaccine breakthrough infection who were hospitalized or died."¹⁰⁸¹ Once again, information is being culled before we can see it to protect the vaccines.

April 30, 2021b: Patrick Coffin, a courageous fighter for liberty, has his YouTube channel taken down shortly before his virtual "Truth Over Fear Summit" is scheduled. He manages nonetheless to have nearly 50,000 signups, but his summit is then shut down by its Australian platform after barely getting started. One week later, with volunteer help from a conservative platform, he resumes his conference. Speakers at the three-day celebration of freedom and truth in science include this writer and the three outstanding physicians who wrote introductions to our book. Patrick stands for all the Americans being cancelled for such things as their opposition to election fraud or criticism of COVID-19 policies, and, more importantly, he stands for resilience as a Re-Founder of America.

May 2021: Six German researchers from Goethe-University of Frankfurt and Ulm University post online a report based on the concept of "Vaccine-Induced COVID-19 Mimicry."¹⁰⁸² That is, the vaccination by itself can produce similar syndromes to SARS-CoV-2. They focus on vaccine-induced

thromboses (clots in blood vessels). One of the frequently clotted veins is in the brain and another in the body. They remark, “This type of adverse event has not been observed in the clinical studies of AstraZeneca, and therefore led immediately to a halt in vaccinations in several European countries. These events were mostly associated with thrombocytopenia,” or low blood platelets. These findings confirm that the SARS-CoV-2 spike protein created in the body as a result of vaccination is in itself toxic and can mimic the effects of COVID-19.

May 2, 2021: Michael Bloomberg’s newsletter editorial sets the record straight on how much the global predators love the violent Chinese dictatorship and how much they hate the spirit of freedom in America. In one of the most stomach-churning displays of American self-loathing, Bloomberg’s editor explains:¹⁰⁸³

Only a year ago, the world stood dumbfounded as the richest nation on earth, under the leadership of a COVID-denying president, botched its response to the pandemic, sacrificing hundreds of thousands of lives to a deadly combination of incompetence, hubris, and political partisanship.

Meanwhile, it was equally obvious that Xi’s swift decision to contain the virus with draconian lockdowns, blanket surveillance, and Mao-style social controls delivered stunning results. China flattened the curve and—while Republicans swore off face masks and social distancing as Americans perished...

Contemplate this: A former NYC mayor, now a leading globalist, can unashamedly declare, “Mao good! Trump bad,” preferring the Communist nightmare to the American Dream. Everything we Americans hold dear is threatened to extinction by the global predators.

May 7, 2021: Dr. Peter McCullough is interviewed at length by Tucker Carlson on *Fox Nation*, followed by an excerpt that evening on his show on the Fox News Channel. Carlson is openly dismayed to learn about the innumerable deaths caused by the unprecedented and inexcusable suppression

of safe and effective treatments for COVID-19. Tucker is seen asking Dr. McCullough “Why?” and “Who’s behind it?” multiple times. We send our book manuscript to Tucker in the hope he will use it to answer the essential questions, which would be an enormous media breakthrough in broadcasting the truth.

May 10, 2021: Research that should be required reading for all concerned is published in the *International Journal of Vaccine Theory, Practice, and Research*,¹⁰⁸⁴ describing the unparalleled circumstances surrounding the Moderna vaccine that make it such a radical, dangerous experiment on humanity:¹⁰⁸⁵

Unprecedented

Many aspects of COVID-19 and subsequent vaccine development are unprecedented for a vaccine deployed for use in the general population. Some of these include the following.

1. First to use PEG (polyethylene glycol) in an injection (see text)
2. First to use mRNA vaccine technology against an infectious agent
3. First time Moderna has brought any product to market
4. First to have public health officials telling those receiving the vaccination to expect an adverse reaction
5. First to be implemented publicly with nothing more than preliminary efficacy data
6. First vaccine to make no clear claims about reducing infections, transmissibility, or deaths
7. First coronavirus vaccine ever attempted in humans
8. First injection of genetically modified polynucleotides in the general population

May 11, 2021: Fauci lies to Senator Rand Paul under oath at a Senate hearing by declaring that neither his NIAID nor NIH has funded gain-of-function research with the Wuhan Institute of Virology in China (Chapter 2). Afterward, he continues lying to the press.¹⁰⁸⁶

May 12, 2021: *The CDC has now received a total of 4,434 reports of deaths associated with vaccination in the U.S.*¹⁰⁸⁷ *By any standard, this is catastrophic.* Because underreporting is inherent in these systems, the actual number of deaths could easily be ten times or greater. In the past, a vaccine would have been withdrawn after 100 reports of deaths. Many physicians and countries are now calling for an end to the vaccine slaughter.

A striking pattern emerges. The CDC and other authorities have all along been vastly exaggerating the numbers of deaths caused by COVID-19 and now are ignoring the multitude of deaths being caused by the vaccines. It's all about the billions being made by predatory globalists from vaccines. Simultaneously, they weaken America's resistance to globalism by enforcing submissiveness among citizens and politicians alike.

May 19, 2021: "The COVID-19 pandemic has brought into sharp focus two issues: the human right to access a life-saving drug and a physician's right to exercise his Hippocratic Oath. Accordingly, the Front Line COVID-19 Critical Care Alliance (FLCCC) today called for the 'Immediate and Global Use of Ivermectin to End the COVID-19 Pandemic.'"¹⁰⁸⁸

May 21, 2021: An article published in *Clinical Infectious Diseases* demonstrates that patients recently vaccinated with mRNA have SARS-CoV-2 spike protein remnants circulating in their blood stream. This confirms that spike protein distribution is not contained within the injection site, as claimed by advocates, and makes all cells in the body vulnerable to attack.

June 9, 2021: Dr. Tess Lawrie, Director, Evidence-based Medicine Consultancy Ltd., sends an "urgent" report to the British drug monitoring agency (MHRA) based on a preliminary analysis of adverse vaccine reports to the agency from January through May 26, 2021.¹⁰⁸⁹ She warns:

We are sharing this preliminary report due to the urgent need to communicate information *that should lead to cessation of the*

vaccination rollout while a full investigation is conducted... (Italics added.)

The three vaccines used in Great Britain are made by AstraZeneca, Pfizer, and Moderna (spanning DNA and RNA). The adverse reactions are not limited to any particular vaccine brand or type. The report counts 1,253 deaths and 256,224 individual adverse event reports in what is called the Yellow Card system.

Drawing on Seneff and Nigh,¹⁰⁹⁰ Lawrie categorizes the types of adverse reactions reported:

- Pathogenic priming, multisystem inflammatory disease, and autoimmunity
- Allergic reactions and anaphylaxis
- Antibody dependent enhancement
- Activation of latent viral infections
- Neurodegeneration and prion diseases
- Emergence of novel variants of SARS-CoV-2
- Integration of the spike protein gene into the human DNA

Lawrie observes that spike proteins which the vaccines cause to be made in the body are “toxic to humans.” She summarizes the reports to the British government as including “thromboembolism, multisystem inflammatory disease, immune suppression, autoimmunity, and anaphylaxis, as well as Antibody Dependent Enhancement (ADE).” These bad outcomes have already been documented in animals under laboratory conditions, and that in itself should have prevented the vaccines from being tested in humans as too dangerous.

June 10, 2021: CDC announces upcoming emergency meeting.¹⁰⁹¹ “As of May 31, the CDC has received 275 preliminary reports of myocarditis and pericarditis in fully vaccinated 16-to-24-year-olds—a number that’s higher than what scientists expected to see, the CDC said Thursday.”¹⁰⁹²

June 11, 2021a: BMJ's *Journal of Medical Ethics* publishes "Voluntary COVID-19 vaccination of children: a social responsibility." The authors endorse vaccinating children to generally benefit society. It also reveals that "Israel, which is a world pioneer in the vaccination of its adult population, signed a contract with Pfizer for sharing data on vaccinated citizens."^{1093,1094}

June 11, 2021b: "VAERS data released today showed 329,021 reports of adverse events following COVID vaccines, including 5,888 deaths and 28,441 serious injuries between Dec. 14, 2020, and June 4, 2021."¹⁰⁹⁵ Giving vaccines to young and younger children is probably the single greatest example of child abuse in human history. A medical blizzard of potential harm like this has never before been unleashed on humanity. The entry to this *Chronology and Overview*, dated July 20, 2021, will summarize the latest reported vaccine-related death totals and comment on the implication of so much mayhem created by a single vaccine in such a short time.

June 22, 2021: Pandemic Predictions and Planning Event. A new report in *Science* led by Ralph Baric's team from the University of North Carolina defines the tragic future for the endless vaccine assault on humanity. It is titled, "Chimeric spike mRNA vaccines protect against Sarbecovirus challenge in mice." Continuing to falsely claim that SARS-CoV-2 emerged from nature, they are now claiming to have developed new mRNA vaccines: "multiplexed-chimeric spikes" that "can prevent SARS-like zoonotic coronavirus infections with pandemic potential." They are perpetuating the myth that SARS-CoV viruses are lurking in nature ready to emerge. This justifies their continuing with humanity-endangering gain-of-function experiments, creating multiple new pandemic CoVs in their labs. This vaccine scheme continues to engorge the wealth of the global predators, while imposing totalitarian control, and will not go away on its own. The research also exposes Anthony Fauci's lies about NIAID and NIH not funding gain-of-function research with Ralph Baric. This creation of "chimeric" pandemic viruses is supported by several grants from NIAID and NIH, as well as by the pharmaceutically based Burroughs Wellcome Fund and by Facebook's Zuckerberg fund.¹⁰⁹⁶

July 20, 2021: Reports of vaccine-related deaths in COVID-19 have now exceeded 10,000. A detailed CDC report published in 2015 found that "multiple studies and scientific reviews have found no association between

vaccination and deaths except in rare cases.”¹⁰⁹⁷ The study noted that a polio vaccine was withdrawn after five deaths among recipients and five among contact persons. It was called “one of the worst pharmaceutical disasters in U.S. history.” The CDC further explained that swine flu vaccine was withdrawn after a Guillain-Barré syndrome (paralysis, often followed by death) resulted in 53 deaths.

In comparison to stopping the use of vaccines after 10 to 53 reported deaths, as of July 9, 2021, there have been 10,991 COVID-19 vaccine-related reported deaths to the CDC.¹⁰⁹⁸ *Nothing in the history of American medicine has ever come remotely near the size of the COVID-19 vaccine catastrophe with many thousands of deaths from COVID-19 in a vaccination program that seems never-ending.*

Then consider that these reports of vaccine-related deaths to the CDC are but a fraction of the actual number of deaths that have occurred. According to studies we evaluated in the book, only 1% to 10% of serious adverse events are reported to the CDC’s reporting system. The actual number of vaccine-related deaths is certainly many, many multiples higher than the already horrifying number of 10,991 deaths reported by early July 2021.

Peter A. McCullough MD, MPH provided us with the following updated information. COVID-19 vaccines are generating record safety reports. In 1990, the Vaccine Adverse Event Reporting Systems (“VAERS”) was established as a national early warning system to detect possible safety problems in U.S. licensed vaccines.¹⁰⁹⁹ The total safety reports in VAERS for all vaccines per year up to 2019 was 16,320. The total safety reports in VAERS for COVID vaccines alone through July 7, 2021, was 438,440.¹¹⁰⁰ *We note that compared to previous rate of reporting for adverse vaccine effects to the CDC, the current reporting for COVID-19 is an avalanche.*

Dr. McCullough also observed that people are dying and being hospitalized in record numbers in the days after COVID-19 vaccination. Based on VAERS as of June 25, 2021, there were 9,048 COVID-19 vaccine deaths reported and over 26,818 hospitalizations reported for the COVID-19 vaccines (Pfizer, Moderna, J&J). By historical comparison, from 1999 until December 31, 2019, VAERS received 3,167 (158 per year) adult death reports for all vaccines combined. Thus, the COVID-19 mass vaccination is associated with at least a 57-fold annualized increase in vaccine deaths reported to VAERS. COVID-19 vaccine adverse events account for 99% of

all vaccine-related adverse events from December 2020 through the present in VAERS.

We agree with Dr. McCullough *that COVID-19 deaths should have been taken seriously and investigated, and then analyzed for the public, when they reached much less than 150. Then the vaccines should have been withdrawn when the reported deaths exceeded 200. They have now exceeded 10,000. Unlike all other large clinical investigations, the U.S. COVID-19 mass vaccination program has no critical event committee, data safety and monitoring board, and no human ethics committee. In a nutshell, there is nothing in the program to protect Americans from safety problems that arise with the vaccines.*¹¹⁰¹

We believe that this slaughter of innocents is a mass murder that must be stopped.

August 4, 2021: This is the final entry into the *Chronology and Overview* and also into the book before it is published. It summarizes earlier events that, unfortunately and tragically, confirm that President Trump was aware of considerable medical, scientific, and legal support for any action he would take in saving lives in America and around the world by allowing and promoting preventive care and early home-based treatment of COVID-19 with appropriate medications, including hydroxychloroquine.

According to a private communication to us on August 2, 2021, from Elizabeth Lee Vliet MD, who was involved in these developments, President Trump's adviser, Peter Navarro, and the President himself were aware of the importance and availability of safe, effective treatments and failed to follow through. She also reports that Senator Ron Johnson also communicated directly with the President about the need for allowing American physicians and their patients access to these medications. Her observations are well-documented.

Dr. Vliet was working with Senator Johnson as far back as early March and early April 2020 on organizing a letter from American physicians to President Trump urging him to "give patients the right to try this drug [hydroxychloroquine] early in the course of their COVID-19 diagnosis."¹¹⁰² On June 2, 2020, The Association of American Physicians and Surgeons (AAPS) announced a lawsuit against the FDA to release the national stockpile of hydroxychloroquine for use by American citizens in the early and effective treatment of COVID-19.¹¹⁰³ On June 22, 2020, the AAPS reported, "Today,

the Association of American Physicians and Surgeons filed its motion for a preliminary injunction to compel release to the public of hydroxychloroquine by the Food and Drug Administration (FDA) and the Department of Health and Human Services (HHS), in *AAPS v. HHS*, No. 1:20-cv-00493-RJJ-SJB (W.D. Mich.). Nearly 100 million doses of hydroxychloroquine (HCQ) were donated to these agencies, and yet they have not released virtually any of it to the public.”¹¹⁰⁴ The AAPS further declared, “AAPS agrees with President Trump’s adviser, Peter Navarro, PhD, who decries the obstruction by officials within the FDA to making this medication available to the public. President Trump himself has successfully taken this medication as a preventative measure,¹¹⁰⁵ so why can’t ordinary Americans?”

As we begin discussing in the Preface to this book, the global predators reversed President Trump’s very successful America First program by unleashing COVID-19 on the world. President Trump ultimately supported their goals by shutting down the American economy and society, withdrawing his initial support of early treatment, and strongly endorsing the Gates’ vaccine plan called Operation Warp Speed. The President’s actions contributed to untold numbers of deaths. His support of the mass vaccinations and the lockdowns continues to demoralize a large portion of our citizenry and have profoundly compromised America’s individual and political freedom.

We Americans, as well as others around the world, cannot rely upon heroic leaders to save us. It is time for freedom-loving, patriotic citizens everywhere to recognize and to stand up as a unified resistance against the loss of our freedoms and in support of reviving the spirit of liberty in America and everywhere on Earth.

September 9, 2021: President Joe Biden mandates through OSHA (Occupational Safety and Health Administration) that companies with 100 employees must require employees to be vaccinated or to be tested weekly. Companies failing to comply would be fined \$14,000 for every infraction, according to the OSHA rules, set to take effect January 4, 2022.

November 2021: Violent protests break out in Europe over vaccine mandates, including Austria, Croatia, Italy, Northern Ireland, the French territory of Guadeloupe and the Netherlands.

November 6, 2021: The United States Court of Appeals for the Fifth Circuit in Louisiana issues an emergency stay blocking the Biden/OSHA mandate of September 9.

November 12, 2021: An appeals court upholds its decision to pause President Bidens sweeping vaccine mandate for private companies, calling the rule “staggeringly overbroad.”

November 18, 2021: Seemingly acting against the Biden administration, OSHA responds to court decisions by suspending its enforcement of the President’s mandate for forcing corporations to require vaccinations or regular COVID testing on all employees.

Is it coming—the end of America as the beacon of liberty for humanity?

Our future is up to us all.

Become a Re-Founder of America!

ACKNOWLEDGMENTS

We are especially grateful to Peter A. McCullough MD, Elizabeth Lee Vliet MD, and Vladimir “Zev” Zelenko MD, three great doctors and among the most knowledgeable people in the world about the prevention and early treatment of COVID-19. All three have appeared separately on *The Dr. Peter Breggin Hour* radio/TV show and in separate shorter videos, most originally on our YouTube Channel, and now all on www.Brighteon.com.¹¹⁰⁶ We are honored that they wrote introductions to our book. Their help is an inestimable contribution to our book, our knowledge, and the public good. They are saving lives with their work in the field of prevention and early treatment of COVID-19. Dr. Zelenko has inspired us beyond words, and Dr. McCullough has educated and supported us beyond anything we could have hoped for. They are Re-Founders of America.

Ginger and I wish to single out Elizabeth Lee Vliet MD for our appreciation. With enormous generosity, she volunteered many hours reading and discussing the manuscript with us, making this a much better book. In early August 2021, Dr. Vliet announced the founding of the nonprofit Truth for Health Foundation. She is the President and CEO, and Dr. McCullough is the Chief Medical Advisor.¹¹⁰⁷

Judy Mikovits MD and Meryl Nass MD were especially welcoming to us early in our investigations surrounding COVID-19, contributing their enormous professional experience and insights into the origins and nature of the pandemic.

We want to thank the experts from many fields we interviewed on videos and the weekly *The Dr. Peter Breggin Hour* radio/TV show: Marilyn Singleton MD JD, Paul Alexander PhD, Eamonn Mathieson MD, Robert Yoho MD, Lee Merritt MD, and Matt Strauss MD. Other outstanding COVID-19 interviews include Dr. Miklos Lukacs, Lt. Frank Moore (FDNY Ret.), attorney Leah Wilson and Stand for Health Freedom, historian Dr. Uwe Alschner, entrepreneur Clay Clark, and journalists Jeffrey Tucker, Leo Hohmann, and Kristina Borjesson.

With special gratitude, we acknowledge the bravery of Li-Meng Yan MD, PhD, a scientist who fled China to speak out bravely to the world. We treasure our communications with her and thank her for living in the United States, where she is much-needed and deeply valued.

We want to thank attorney Thomas Renz for asking me to write a medical expert report in support of a legal case aimed at stopping the seemingly unending “emergency declaration” by Ohio’s Governor Mike DeWine, who is using COVID-19 to increase his top-down control over the lives of the citizens of Ohio. The huge effort of writing a report for the Ohio court and the success of getting the case accepted by the court galvanized us into further action. More recently, we are pleased to be working on cases of COVID-19 abuse with attorney Robert F. Kennedy, Jr. in the U.S. and attorney Reiner Fuellmich in Germany.

We also want to thank our friend Pam Popper PhD, creator of Make Americans Free Again, for connecting us to Tom Renz. Tom and Pam are both heroes who are devoting themselves to freedom at a time when to do so is risky and all-consuming. C. J. Wheeler is our marvelous publicist, helping to get the book off the ground way before publication. She is a gift to those of us fighting for American values and liberty. Catherine Austin Fitts is a great supporter of our work and has helped the public know about it and helped us understand globalism.

Patrick Coffin has been a great inspiration in his courage, resilience, and deep faith. Brig. Gen. Robert S. Spalding III provided a video interview with outstanding information that confirmed our viewpoint about the existential threat posed by Communist China. Nick Hudson is the courageous Chairman of PANDA (Pandemics - Data & Analytics), an international multidisciplinary group that examines and informs about the human cost of COVID-19 globally.

Diana West’s pioneering book *American Betrayal: The Secret Assault on Our Nation’s Character* (2014) is about the corruption of our government by Communist influences during World War II and helped inspire our research.

The Association of American Physicians and Surgeons (AAPS) represents thousands of doctors who believe in health freedom and the principle of liberty. I am a member along with many other physicians we have thanked in these acknowledgments.

Ginger’s mother, Jean, gets a special thank you for the good humor and insight she brings to the “war room,” which is our kitchen/dining room area. She adds immeasurably to our resilience, ability to laugh, and insights.

We have many, many others to thank but, out of respect for their privacy and safety in these threatening times, we must thank them in person.

ABOUT THE AUTHORS

PETER R. BREGGIN MD

Peter R. Breggin MD has been called “The Conscience of Psychiatry” for his many decades of successful efforts to reform the mental health field. His scientific and educational works have provided the foundation for modern criticism of psychiatric drugs, electroshock, and psychosurgery. He is also a leader in promoting more caring and effective therapies. His professional website and his earlier YouTube video channel, now located on www.brighteon.com, reach millions annually. However, due to increasing censorship, it is best to follow his work by subscribing to his Free Frequent Alerts on his professional website, www.breggin.com.

From early in his career, Peter has promoted freedom, responsibility, and love in his clinical, educational, professional, and political activities. His values of reason, liberty and love, and his research experience, led him to join others in examining and resisting the oppression behind COVID-19, and in promoting what he calls the Refounding of America.

In the arena of COVID-19, along with his wife Ginger as his co-researcher and consultant, he is currently working with three outstanding attorneys in a variety of state, federal, and international cases to protect and advance individual freedom: Robert F. Kennedy, Jr. and Tom Renz in the United States, and Reiner Fuellmich in Germany and Europe. In these new roles, he draws on many decades of experience as a medical expert in hundreds of legal actions, including landmark cases, on behalf of patient rights in criminal, malpractice, and product liability lawsuits, as well as injunctions to stop abusive medical and psychiatric practices.

Peter is in the private practice of psychiatry in Ithaca, New York. His educational background includes Harvard College, Case-Western Reserve School of Medicine, and psychiatric residency programs at both the State University of NY Upstate Medical Center and the Massachusetts Mental Health Center where he was a Teaching Fellow at Harvard Medical School.

He has authored more than 70 peer-reviewed scientific articles and 24 medical and popular books, including the bestsellers *Toxic Psychiatry* (1991) and *Talking Back to Prozac* (with Ginger Breggin, 1994). His most recent three books are (1) *Medication Madness: The Role of Psychiatric Drugs in Cases of Violence, Suicide, and Crime* (2008); (2) *Psychiatric Drug Withdrawal: a Guide for Prescribers, Therapists, Patients and Their Families* (2013); and (3) *Guilt, Shame, and Anxiety: Understanding and Overcoming Our Negative Emotions* (2014).

GINGER ROSS BREGGIN

Ginger Ross Breggin has a background in journalism, book editing, bookmaking, and book publishing. Since 1984, she has partnered with Peter as a coauthor, writer, editor, researcher, organization administrator, advisor, and communicator with the outside world.

When hints of a possible new pandemic reached the U.S. in January 2020, Ginger redirected her attention to researching what would be called SARS-CoV-2. She soon recognized the significance of an obscure reference to a paper published in 2015 in *Nature Medicine*. It was titled, “A SARS-like cluster of circulating bat coronaviruses shows potential for human emergence.” It documented that the U.S. had been collaborating with Chinese researchers at the Wuhan Institute of Virology in gain-of-function research—making lethal viruses very similar to SARS-CoV-2. With her husband, they set aside their normal lives and began work on the pandemic, digging deep into the tragedy of the world’s response to COVID-19.

Along with her husband Peter, Ginger is a member of several COVID-19 medical and science groups, including the international Doctors for Covid Ethics (D4CE) and the U.S.-based C19 Group which focuses upon early treatments for COVID-19, ongoing research, and the effects of government policies.

Ginger is the coauthor of several books with Peter, including their bestseller *Talking Back to Prozac* (1994) and *The War Against Children of Color: Psychiatry Targets Inner City Youth* (1998). She is a coeditor of *Dimensions of Empathic Therapy*.

Ginger designed and published Peter's book, *Wow, I'm an American: How to Live Like Our Nation's Heroic Founders*. She edited and published *The Conscience of Psychiatry: The Reform Work of Peter R. Breggin, MD*. She has researched, edited, and coauthored many blogs with him on the issues in this book.

Ginger inspired and cofounded with her husband the peer-reviewed scientific journal *Ethical Human Psychology and Psychiatry*, which she managed for many years. As a freshman undergraduate at American University, she was given an annual honors award for the best social sciences paper for all levels of the university. She is also an award-winning photographer.

From 1988-2002, she was the Executive Director of Peter's original nonprofit reform center, the International Center for the Study of Psychiatry and Psychology (ICSPP). In 2010, she cofounded a new reform nonprofit organization with her husband called The Center for the Study of Empathic Therapy, for which she is the executive director. She also works with her husband on his websites and produces his videos and his radio/TV show, *The Dr. Peter Breggin Hour*.
